ON AIR NOW

3 / 4 channels on air · 4,182 TV viewers · 2,544 radio listeners

1 CHANNEL ON AIR WITH NO SIGNAL

PLTV 3 has been on air for 12m with nothing arriving from the studio encoder for the last 3m 12s. Viewers see a spinner.

The **key** is permanent — it is the stream path inside every encoder's publish URL. The channel **name** is safe to change at any time.

1 · **Puntland TV** `main` TV + RADIO — Now playing **Warbaahinta Fiidka** · all renditions healthy — Radio Puntland · 88.5 FM · Garoowe — LIVE · 2h 04m — **4,182** watching — **1,904** listening · radio on air

2 · **PLTV 3** `pltv3` TV ONLY — Readers see a spinner. Nothing has arrived from the studio encoder for 3m 12s. — On air since 19:04 · last frame 19:13:48 — ON AIR · NO SIGNAL — Ingest not arriving — **37** watching a spinner

Either the encoder stopped publishing to `/live/pltv3`, or the studio uplink dropped.

3 · **PLTV 2** `pltv2` TV ONLY — Off air since yesterday 23:40 · nothing scheduled — Visible to readers as an off-air channel — OFF AIR — No signal expected while off air

4 · **Radio Garowe** `radio-garowe` RADIO ONLY — On air · audio arriving, bitrate stable — 91.2 FM — ON AIR · 6h 12m — **640** listening

5 · **PLTV Sport** `sport` HIDDEN — Created 8 minutes ago · not visible to readers while hidden — Next: point an encoder at `/live/sport`, then publish — OFF AIR — Never been on air

ON AIR NOW 3 / 4 · 4,182 TV viewers · 2,544 listeners

PLTV 3 — ON AIR, NO SIGNAL

Nothing from the encoder for 3m 12s.

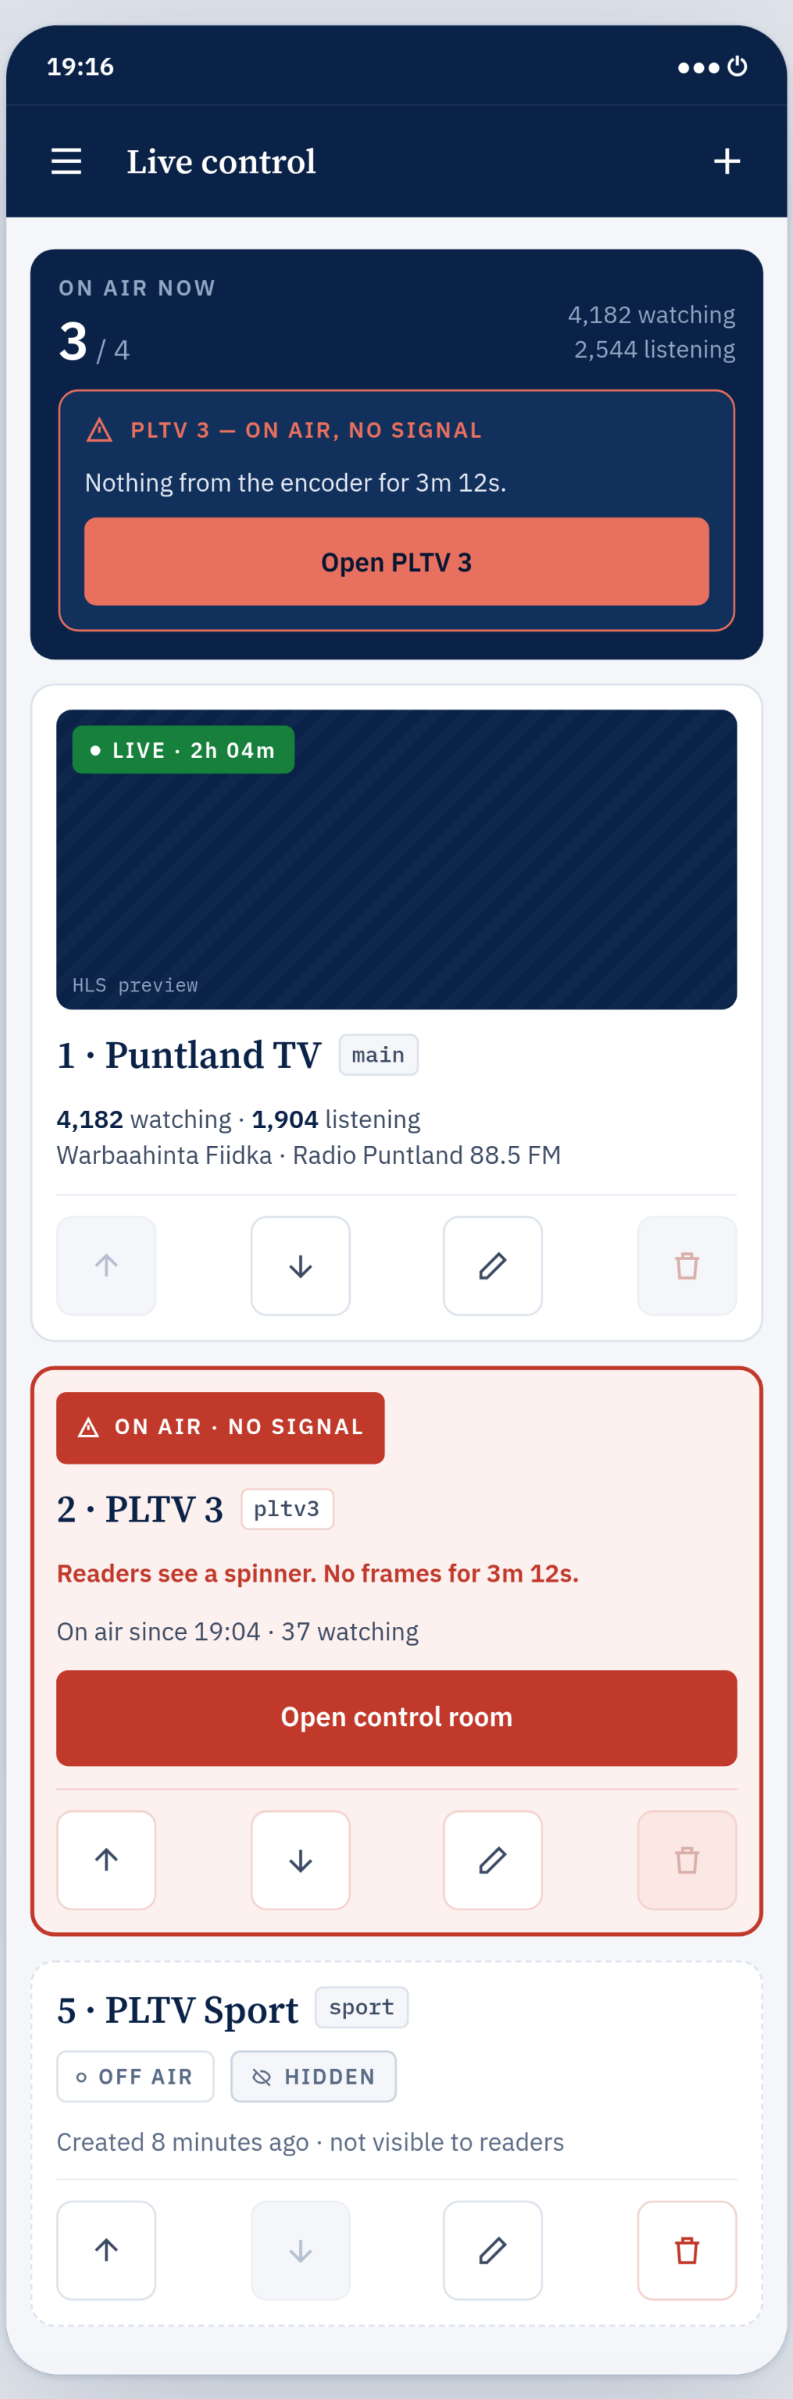
The key is permanent — it is the stream path in every publish URL. The name is safe to change.

1 · Puntland TV `main` — LIVE · 2h 04m — **4,182** watching · **1,904** listening — Warbaahinta Fiidka · Radio Puntland 88.5 FM

2 · PLTV 3 `pltv3` — ON AIR · NO SIGNAL — Readers see a spinner · no frames for 3m 12s — On air since 19:04 · 37 watching

3 · PLTV 2 `pltv2` — OFF AIR — Off air since 23:40 · nothing scheduled

PHONE 390 · HOLDS AT 320



ON AIR NOW 3 / 4 · 4,182 watching · 2,544 listening

PLTV 3 — ON AIR, NO SIGNAL

Nothing from the encoder for 3m 12s.

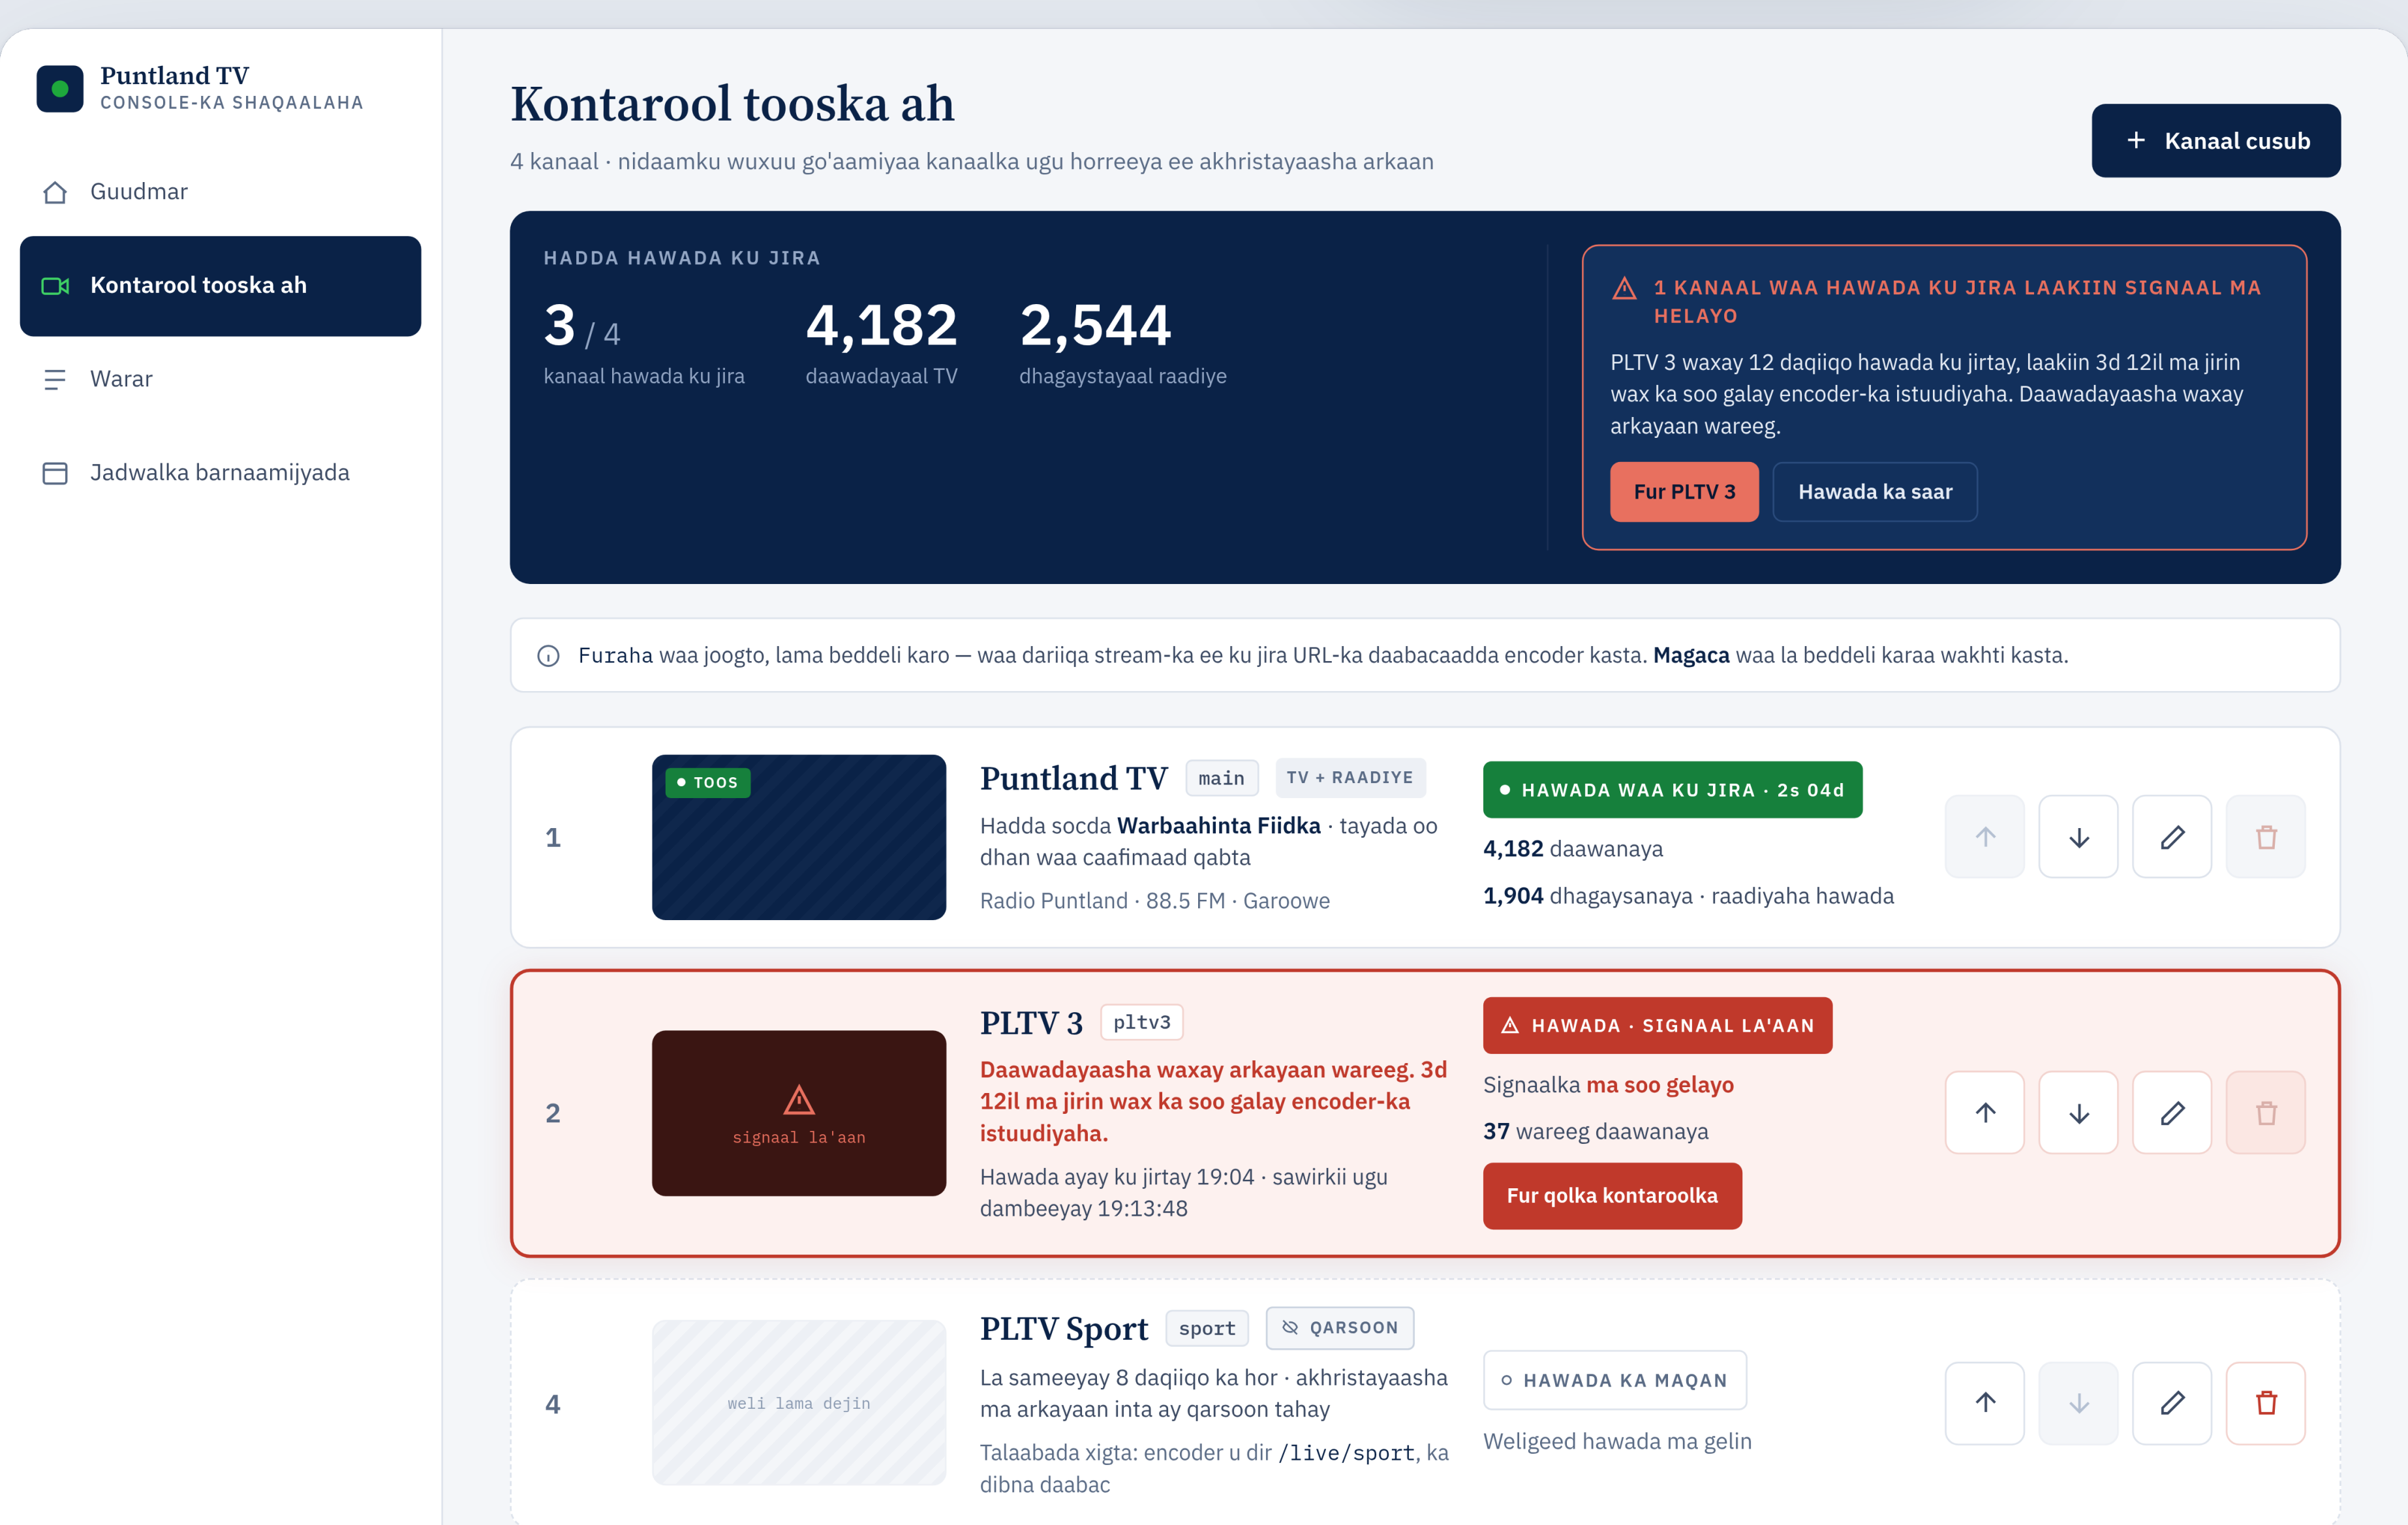
1 · Puntland TV `main` — **4,182** watching · **1,904** listening — Warbaahinta Fiidka · Radio Puntland 88.5 FM

ON AIR · NO SIGNAL — 2 · PLTV 3 `pltv3` — Readers see a spinner. No frames for 3m 12s. — On air since 19:04 · 37 watching

5 · PLTV Sport `sport` — OFF AIR — HIDDEN — Created 8 minutes ago · not visible to readers

1C Somali — desktop 1440

Longest labels tested: status pills wrap to two lines instead of truncating; icon buttons carry no text



Kontarool tooska ah

4 kanaal · nidaamku wuxuu go'aamiyaa kanaalka ugu horreeya ee akhristayaasha arkaan

HADDA HAWADA KU JIRA

3 / 4 kanaal hawada ku jira · 4,182 daawadayaal TV · 2,544 dhagaystayaal raadiye

1 KANAAL WAA HAWADA KU JIRA LAAKIIN SIGNAAL MA HELAYO

PLTV 3 waxay 12 daqiiqo hawada ku jirtay, laakiin 3d 12il ma jirin wax ka soo galay encoder-ka istuudiyaha. Daawadayaasha waxay arkayaan wareeg.

Furaha waa joogto, lama beddeli karo — waa dariiqa stream-ka ee ku jira URL-ka daabacaadda encoder kasta. **Magaca** waa la beddeli karaa wakhti kasta.

1 · **Puntland TV** `main` TV + RAADIYE — Hadda socda **Warbaahinta Fiidka** · tayada oo dhan waa caafimaad qabta — Radio Puntland · 88.5 FM · Garoowe — HAWADA WAA KU JIRA · 2s 04d — **4,182** daawanaya — **1,904** dhagaysanaya · raadiyaha hawada

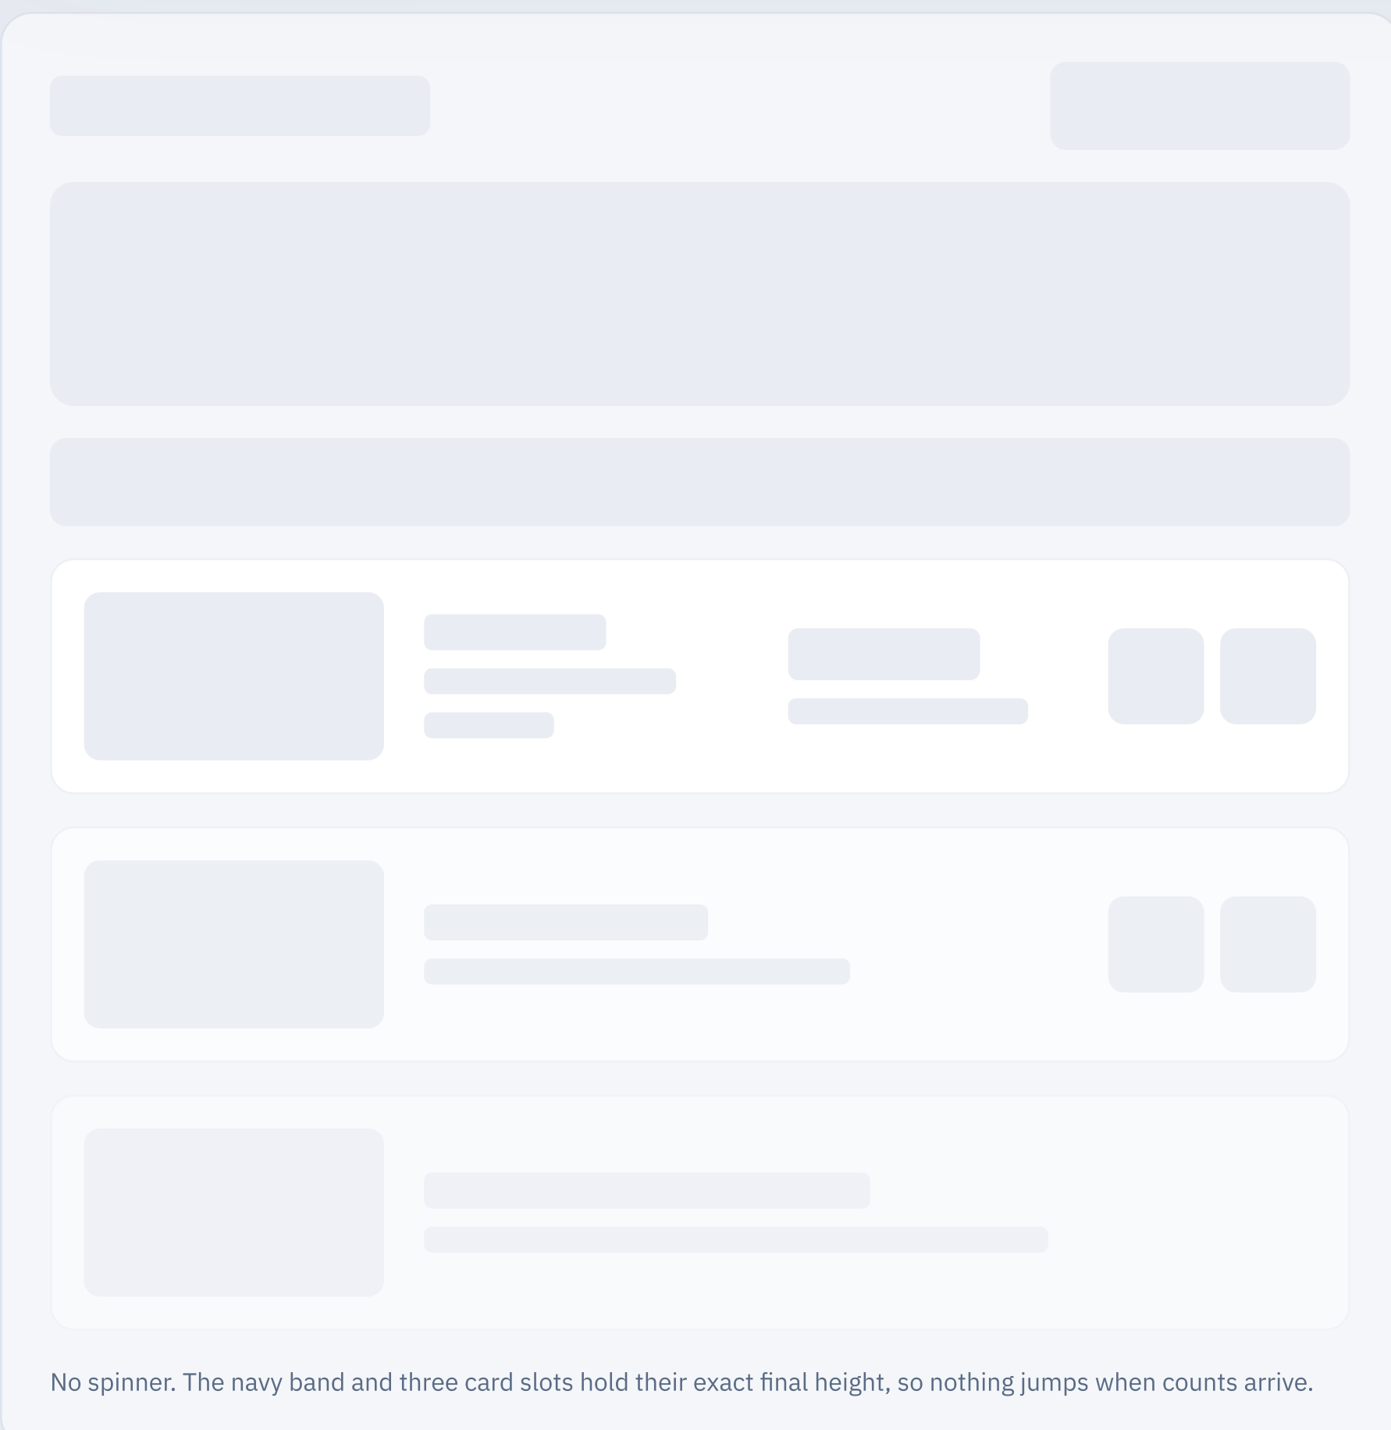
2 · **PLTV 3** `pltv3` — Daawadayaasha waxay arkayaan wareeg. 3d 12il ma jirin wax ka soo galay encoder-ka istuudiyaha. — Hawada ayay ku jirtay 19:04 · sawirkii ugu dambeeyay 19:13:48 — HAWADA · SIGNAAL LA'AAN — Signaalka ma soo gelayo — **37** wareeg daawanaya

4 · **PLTV Sport** `sport` QARSOON — La sameeyay 8 daqiiqo ka hor · akhristayaasha ma arkayaan inta ay qarsoon tahay — Talaabada xigta: encoder u dir `/live/sport`, ka dibna daabac — HAWADA KA MAQAN — Weligeed hawada ma gelin

1D States

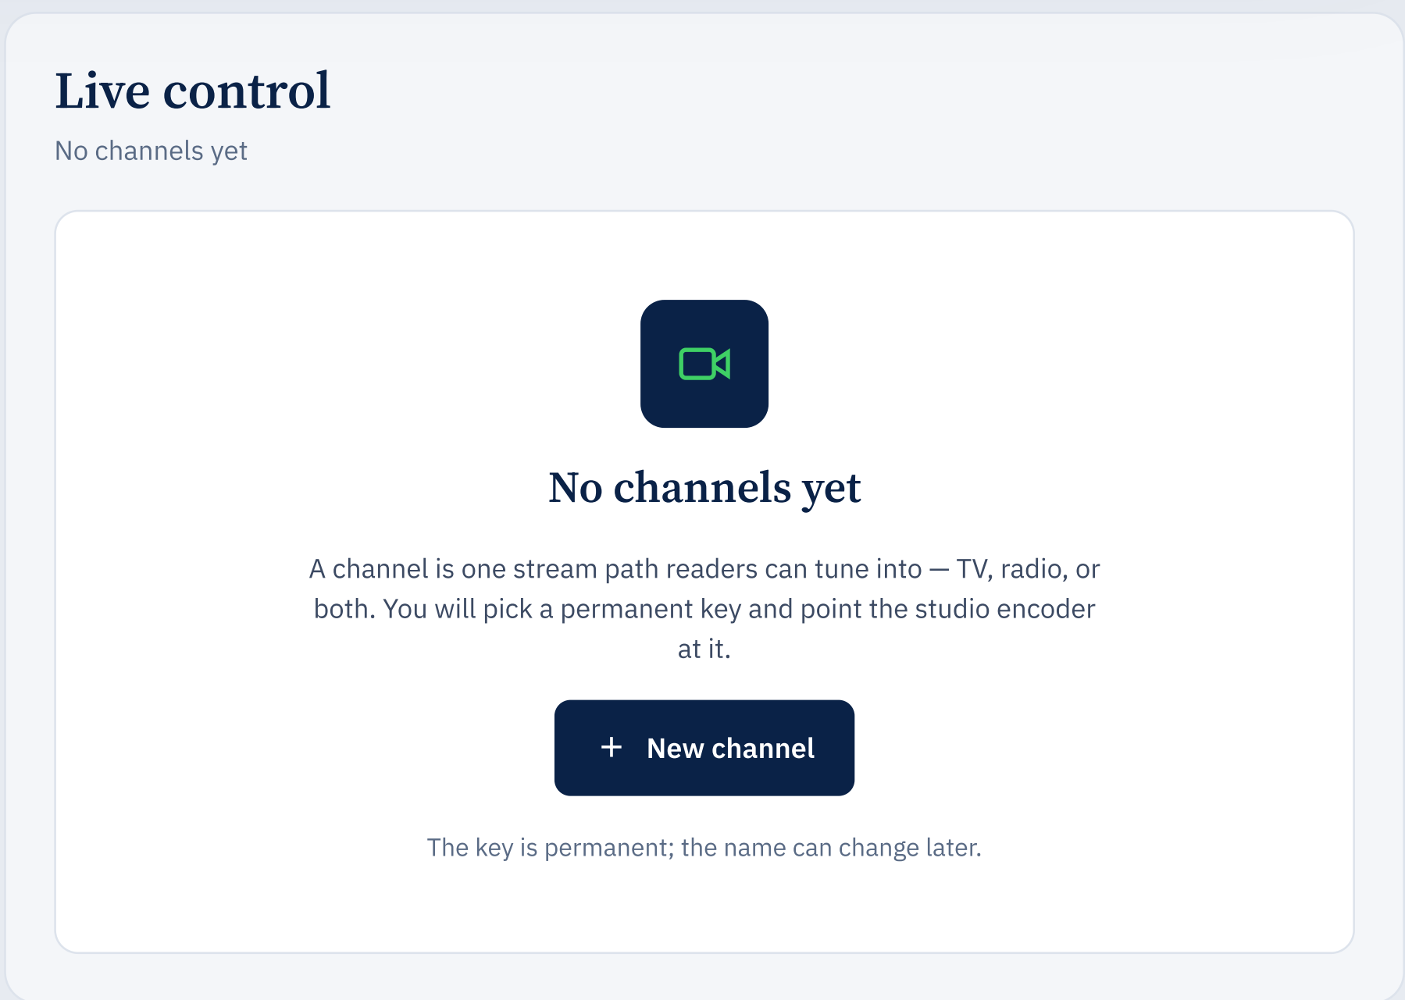
Loading · empty · one channel · delete disabled · delete confirmation

LOADING · SKELETON SHAPED LIKE THE LIST



No spinner. The navy band and three card slots hold their exact final height, so nothing jumps when counts arrive.

EMPTY · NO CHANNELS YET



Live control

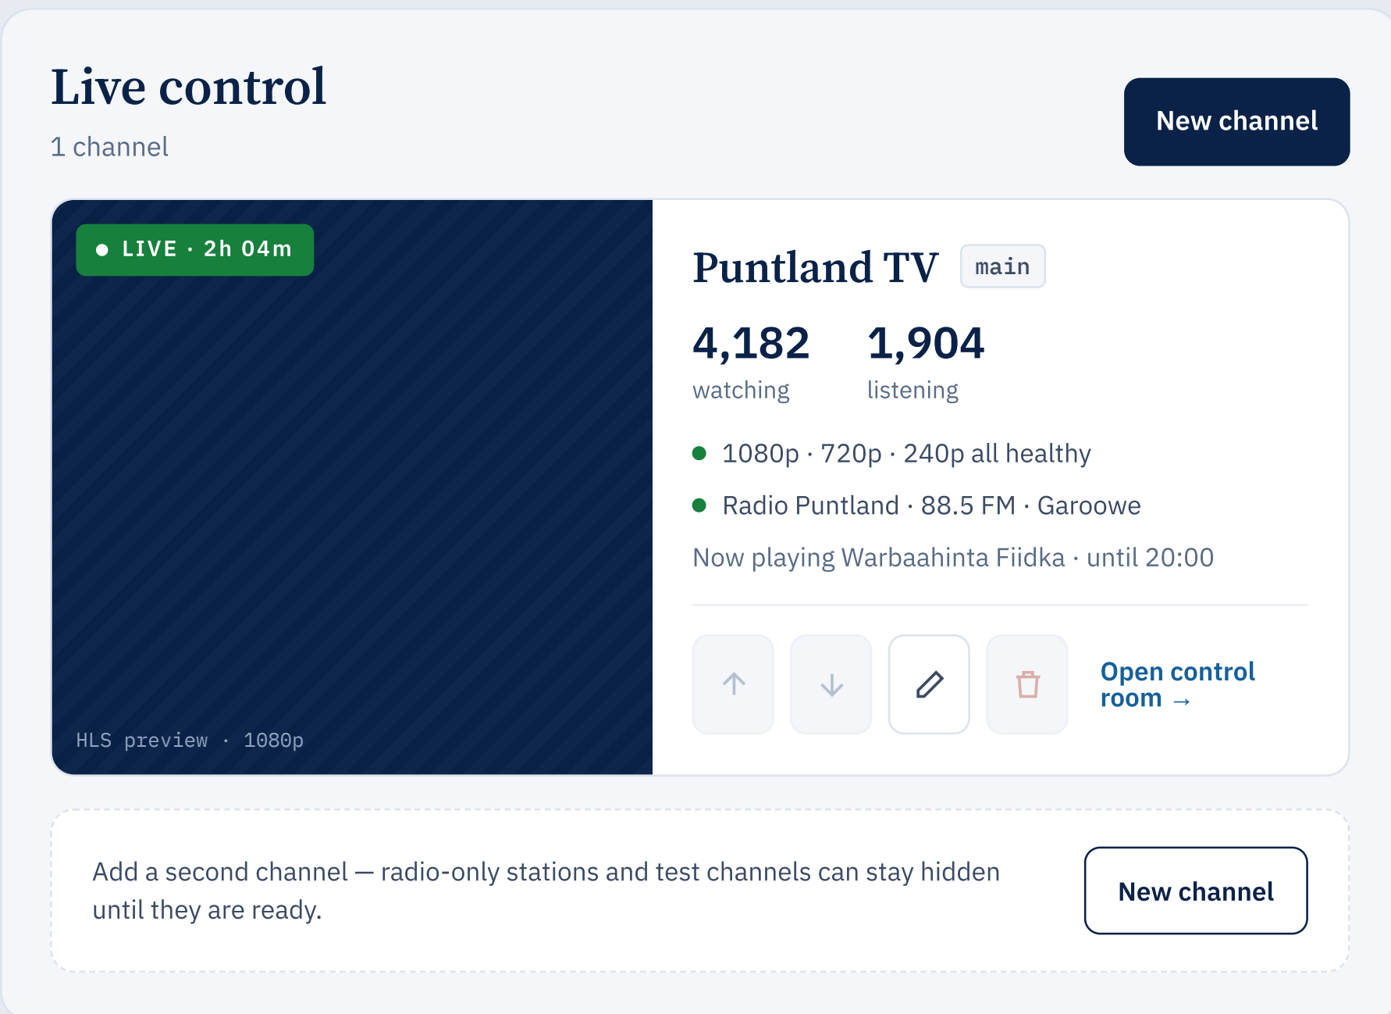
No channels yet

No channels yet

A channel is one stream path readers can tune into — TV, radio, or both. You will pick a permanent key and point the studio encoder at it.

The key is permanent; the name can change later.

ONE CHANNEL · THE CARD EXPANDS INSTEAD OF LEAVING THE PAGE EMPTY



Live control

1 channel

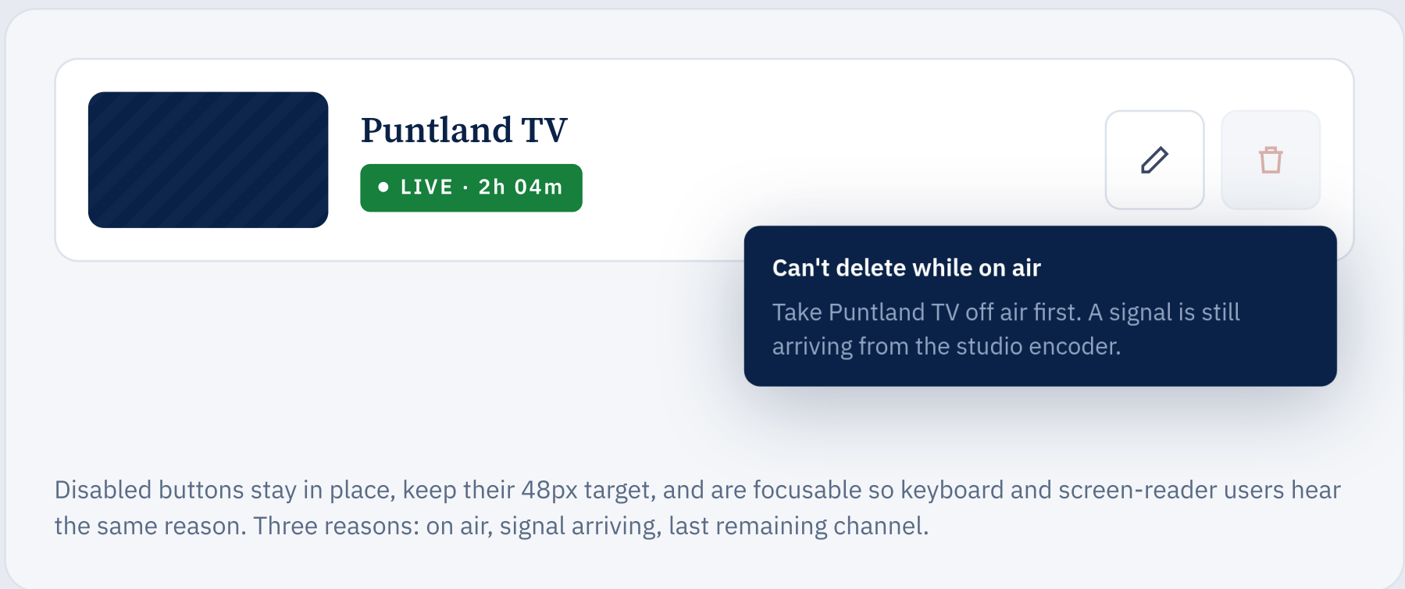
Puntland TV `main` — **4,182** watching · **1,904** listening

- 1080p · 720p · 240p all healthy
- Radio Puntland · 88.5 FM · Garoowe

Now playing Warbaahinta Fiidka · until 20:00

Add a second channel — radio-only stations and test channels can stay hidden until they are ready.

DELETE DISABLED · HOVER GIVES THE REASON

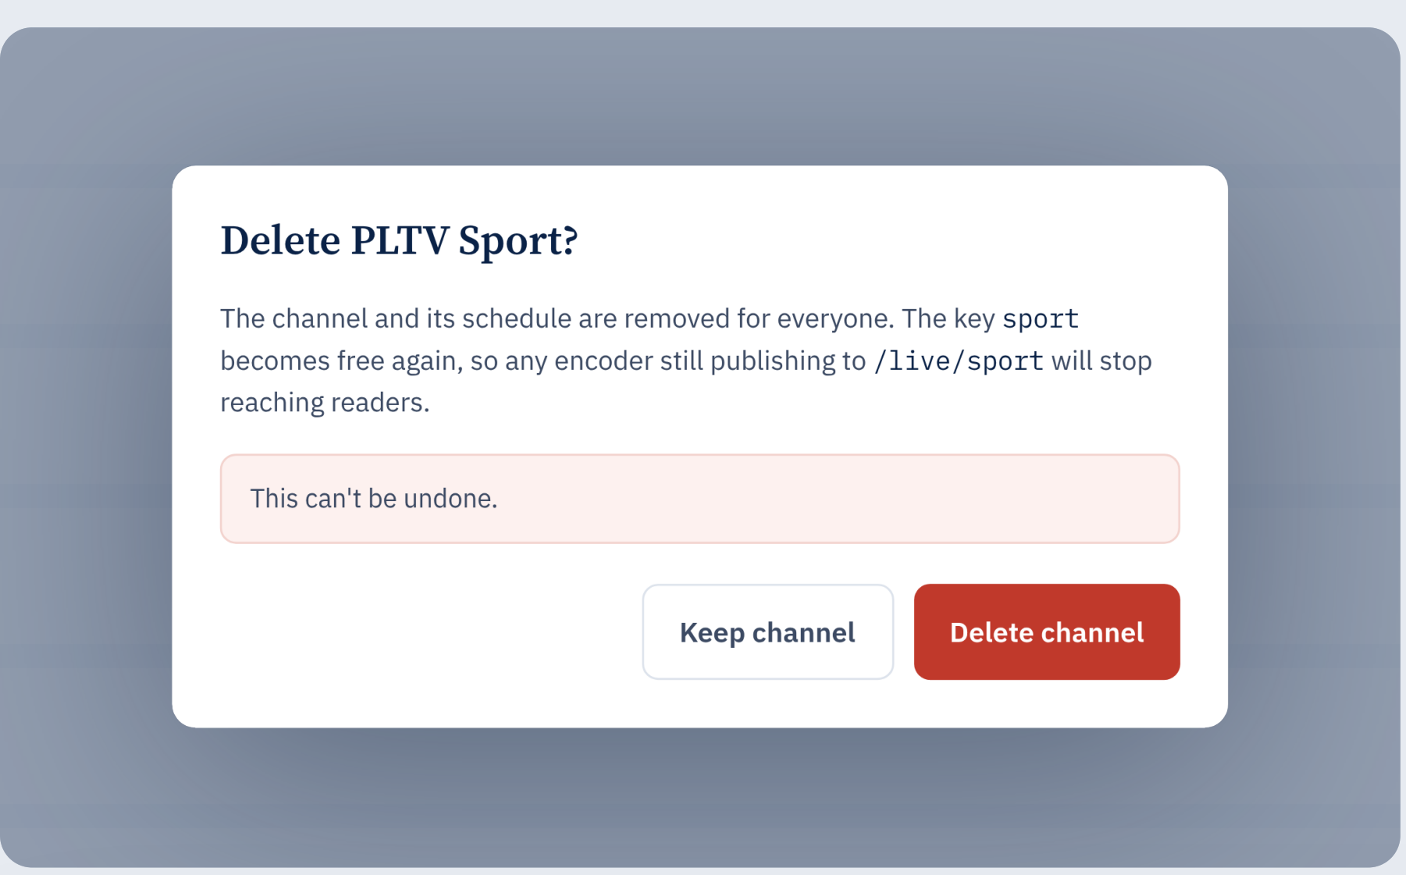


Can't delete while on air

Take Puntland TV off air first. A signal is still arriving from the studio encoder.

Disabled buttons stay in place, keep their 48px target, and are focusable so keyboard and screen-reader users hear the same reason. Three reasons: on air, signal arriving, last remaining channel.

DELETE CONFIRMATION · ALWAYS SHOWN



Delete PLTV Sport?

The channel and its schedule are removed for everyone. The key `sport` becomes free again, so any encoder still publishing to `/live/sport` will stop reaching readers.

This can't be undone.

1E Why this layout

STATUS CARDS, NOT A BETTER TABLE

A table gives every channel the same weight and the same cell sizes — fine for settings, wrong for a control room. Each channel here carries unequal amounts of information: a live TV+radio channel has a preview, uptime, two audience numbers, a programme and a frequency; an off-air channel has almost nothing. Cards let a live channel be tall and loud and let an off-air one be quiet, and they let one card change colour without wrecking a grid. The list keeps a table's virtues that matter — a fixed column rhythm (order · preview · channel · status · actions), so the eye still scans down a straight edge, and the actions always land in the same place.

HOW "ON AIR, NO SIGNAL" BECOMES UNMISSABLE

Five signals stack on that one state, none of them colour alone:

1 · It is called out in the navy band at the top of the page, before you reach the list — the only alert that ever appears there.

2 · The card is the only one with a filled error background and a 2px border, so it reads as a different object at a glance across a dark control room.

3 · Its status pill is text, not just a colour: **ON AIR · NO SIGNAL**, with a warning triangle.

4 · The preview tile — normally reassuring live video — is replaced by an explicit "no frames" state, so the absence is visible where the picture should be.

5 · It states the consequence in operator language ("readers see a spinner"), the duration, and the two fixes as buttons on the card.

OFF AIR STAYS CALM

Off air uses no error colour at all: a hollow dot, grey pill, striped placeholder, and the reassurance that no signal is expected. Nothing red, nothing to fix.

HIDDEN STAYS CALM TOO

A dashed outline plus a crossed-eye "HIDDEN" chip — visibly different, never alarming, and it tells you the next setup step.

1 OR 12 CHANNELS

With one channel the card widens and shows rendition health and schedule; at a dozen, off-air cards collapse to a single compact row so the live ones keep the height.

ACTIONS AND BILINGUAL FIT

All four row actions are visible 48×48 icon buttons — no overflow menu — and because they are icons with tooltips, Somali's extra length never touches them. Everywhere text does carry the meaning (nav, pills, headings), the containers grow instead of truncating: pills use min-height and wrap to two lines, nav items are min-height 44px, and no label is clipped with an ellipsis. Card-wide click opens the control room; the action buttons stop that click.

THE NAVY BAND AS A BRIDGE

The page stays light like the rest of the console, but the one summary block is the console's dark surface — the same material the channel's control room is made of. Opening a channel then feels like walking through that block into the dark room rather than into a different product.
